🔺 home.pug

PDF titled "Criminal Risk Assessment Request-e-request" and XLSForm "Criminal_Risk_Assessment_ODK_Form.xlsx".

Use the XLSForm as the logical source (field types, required inputs, conditional visibility).

Instructions:
-Match field labels from the PDF
-Render each field in a clean Pug layout (input, select, textarea, etc.)
-Respect constraints (mandatory fields, formatting like Canadian date) Include conditionals for fields like "Unconsented", which only shows when Name and Signature are blank
- For date of birth, split into Day/Month/Year inputs
- Use appropriate input types (e.g., type="email", type="tel")
- For multi-selects (e.g., IDs), use checkboxes

Only return the full Pug code

home.pug

consent_date
consent_given
witness_name
consent_signature
these are the missing field

↺ Restore checkpoint

Let's add the missing fields `consent_date`, `consent_given`, `witness_name`, and `consent_signature` to the Pug template. Here's how you can structure these fields:

```pug
pug                                    ⧉  ▷ Apply to home.pug

form(action="/submit" method="post")
  //- Name field
  .form-group
    label(for="name") Name
    input#name(type="text" name="name" required)

  //- Date of Birth split into Day/Month/Year
  .form-group
    label Date of Birth
    .dob
      input(type="number" name="dob-day" placeho
      input(type="number" name="dob-month" place
      input(type="number" name="dob-year" placeh
```

home.pug

give the overall pug file attaching all the coe

Here's the complete Pug template with all the fields, including the additional ones you specified:

home.pug +20 ·

```pug
//- Consent Date field
.form-group
  label(for="consent_date") Consent Date
  input#consent_date(type="date" name="consent

//- Consent Given field
.form-group
  label(for="consent_given") Consent Given
  input#consent_given(type="checkbox" name="co

//- Witness Name field
.form-group
  label(for="witness name") Witness Name
  input#witness_name(type="text" name="witness
```

This template now includes all the fields, including the additional ones you mentioned. If you need further modifications or have specific requirements for any of the fields, feel free to let me know!

Image home.pug

check from the image which field is missing and if something is missing give the code for this

↺ Restore checkpoint

Based on the image, here are the missing fields that need to be added to the Pug template:

1. `first_name`
2. `second_name`
3. `last_name`
4. `gender`
5. `other_last_names`
6. `also_goes_by`
7. `current_address`
8. `birthplace`
9. `ids_provided`
10. `other_id`
11. `dl_number`
12. `agency_name`

🐷 home.pug

i want some checkbox for passport dl birthcertificate and other section

⟲ Restore checkpoint

Let's add checkboxes for "Passport," "DL" (Driver's License), "Birth Certificate," and "Other" sections to the Pug template. Here's how you can structure these checkboxes:

```
🐷 home.pug +10 -4 ●          ⋯ ⎘ ✕ ✓ ⌄

    label
        input(type="checkbox" name="ids_provided
        | ID 1
        input(type="checkbox" name="ids_provided
        | Passport
    label
        input(type="checkbox" name="ids_provided
        | Driver's License
    label
        input(type="checkbox" name="ids_provided
        | Birth Certificate
    label
        input(type="checkbox" name="ids_provided
        | ID 2
                    ⌄
```

This template now includes checkboxes for "Passport," "Driver's License," "Birth Certificate," and "Other" under the IDs section. Let me know if you need any further
